

Our game

Astro escape is an exciting 2D educational game designed for kids of age between 10-14. Here, as a interstellar explorer, you embark on thrilling missions across mysterious planets, navigating intricate mazes, solving challenging puzzles, and uncovering hidden secrets. to get through each maze, one must unlock the doors by answering subject based questions in Mathematics, computer science and a few other topics, with multiple-choice, true/false, and matching questions, the game blends learning with exploration in a fun and engaging way. Collecting precious artifacts and hidden rewards encourage curiosity and deeper discovery. Through the adventurous journey on various planets, one can sharpen their skills to solve problems and enhance their ability to think logically. Are you ready to overcome the challenges of deep space and unlock the mysteries of the universe, or will you be lost in the vastness of the cosmos?

The adventure begins now—click play, explore, learn, and become a legend!
